2	At 0.1 mile, pass by island of tall grass. It's best to pass on the left side, closest to the mainland. Continue in slight northeast direction.
3	Pass by tip of island at 0.6 miles. Begin to veer even more northeastern direction towards another large island 0.3 mile away.
4	At 0.9 mile, paddle around southern tip of island, head into center of bay, paddling towards upper right corner of bay. This is where the canal opening is located.
5	Enter Santee Canal at 1.4 miles. This is a narrow, shallow waterway (no more than 20 yards wide and maintains a depth of 4-5 feet). Enjoy the calm waters of the Santee Canal. Keep an eye out for wildlife, including alligators, deer, wild boar and a variety of waterfowl.
6	Come to railroad crossing over the canal at 2.8 miles. The canal will begin to narrow shortly after the railroad crossing.
7	At 3.2 miles, come to the obvious end of the canal. <b>Return the same way you came.</b>
8	Option. Turn a hard left when leaving the canal and head into a field of lilies. This is picturesque and worth the extra 20-30 minutes, particularly when everything is in bloom!
