Berkeley Outdoor Life Scavenger Hunt

www.BerkeleyOutdoorLife.com

Keep your eyes, ears and hands ready! You can check these items off at any Berkeley Outdoor Life spot—like the boardwalks at the Old Santee Canal Park, the shaded paths of Cypress Gardens, the Daniel Island Trail, or the Francis Marion National Forest. Can you find them all?

Plants & Trees

- ☐ **A Cypress Knee:** Look near water for these knobby wooden “knees” popping straight up out the mud or dirt.
- ☐ **Spanish Moss:** Spot this gray, lace-like plant hanging down from a giant oak or cypress tree branch.
- ☐ **A Pinecone Longer Than Your Thumb:** Berkeley County is full of tall pine trees. Find one of their fallen cones!
- ☐ **A Giant Live Oak Tree:** Find a massive Live Oak tree with heavy, sweeping branches, wider than 3 people.
- ☐ **Green Moss Growing on a Tree Trunk:** Look closely at the shady, damp side of a tree trunk to spot this soft green “carpet.”

Critters & Wildlife

- ☐ **A Dragon Fly Skimming the Water:** Watch closely near any boat ramp, creek or lake line.
- ☐ **A Lizard Doing “Push-ups”:** Look on railings or tree trunks for little green or brown lizards.
- ☐ **A Spiderweb Shaped Like a Wheel:** Look between branches for a classic, web (but don’t touch).
- ☐ **An Alligator in the Water:** Look for North America’s largest reptile. Always stay right beside your parents and away from the water’s edge!

Sounds & Senses

- ☐ **The Sound of a Woodpecker:** Stop, close your eyes, and listen for the rapid tap-tap-tap up in the trees.
- ☐ **A Feather Left Behind:** Look on the ground or on the water for a feather dropped by a duck, heron or egret.
- ☐ **A Wooden Boardwalk Bridge:** Walk across a bridge or boardwalk designed to keep your feet out of the swamp muck.
- ☐ **A Trail Marker:** Find a helpful sign or painted tree stripe guiding hikers along the path.
